<b>CONSTRUCTION HISTORY (DESCRIPTION, NAMES, DATES, ETC., RELATING TO MAJOR ALTERATIONS TO ORIGINAL STRUCTURE):</b> The building was originally part of a larger creamery facility. The 1893 Sanborn map shows the building as an L-shaped structure. The 1908 map shows it as a rectangular building with full-width porch and projecting side porch. By 1914, the building had the same plan as it does today.

<b>HISTORICAL BACKGROUND (DISCUSS IMPORTANT PERSONS AND EVENTS ASSOCIATED WITH THIS STRUCTURE):</b> This building was part of a larger creamery facility erected by J.D. Hill and I.S. Morse in Littleton in 1884. Farmers from the Littleton area brought their milk to this site and it was shipped into Denver as cream or butter. By 1888, the creamery was processing milk from about 1,000 cows. In 1900, the creamery business moved to Denver. Littleton's first high school was held in this building from 1902 until a high school was completed in 1904. By 1908, the Christian Scientist Church was meeting in the building and had added the porch. The Christian Science Church began in Littleton in 1905, when a few individuals began meeting in a private home for Sunday services. Later, the group met in the Woodmen's hall and then met for regular services in this building, which was purchased around World War I. The first Sunday school services were held in 1906 and, in 1909, a Reading Room was opened. City Directories indicate that, by 1955, the First Southern Baptist Church was using the facility. In 1959 and 1961, the building was listed as vacant. By 1968, the building was utilized as a gift shop by owner Elizabeth Funk.

<b>STATEMENT OF SIGNIFICANCE:</b> This building is significant as the last remaining remnant of the Littleton Creamery, founded in 1884, which stood on the site. The building is associated with the early agricultural history of the area. During the period when the creamery operated, the building was substantially larger.
